

### **Informed Choice Questions**

(to ask when deciding about interventions in labour)

- Is this an emergency or do we have time to talk?
- What are the benefits of this procedure?
- What are the risks
- If we go ahead with it, what other procedures might we need as a result?
- What else could we try?
- What would happen if we waited an hour or two?
- What would happen if we didn't have it at all?
